6. Zdravstvena zakonodaja RS (Zakon o zdravstvenem varstvu, Zakon o zdravstveni dejavnosti ipd.

Cilji in kompetence:

Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:

- razumevanje sodobnih konceptov javnega zdravja;
- osvojitev praktičnih pristopov za obvladovanje velikih javnozdravstvenih problemov,
- znanje o ciljih in funkcijah sistema zdravstvenega varstva,
- poznavanje organizacijskih umestitev in analitičnih ovrednotenj zdravstvenih dejavnosti.

Objectives and competences:

The learning unit mainly contributes to the development of the following general and specific competences:

- understanding modern concepts of public health;
- acquiring practical approaches for dealing with large public healthcare problems,
- knowing the objectives and functions of the healthcare system,
- knowing the organisational placement and analytical evaluations of the healthcare activities.

Predvideni študijski rezultati:	Intended learning outcomes:									
<p>Študent/študentka:</p> <ul style="list-style-type: none"> • spozna temelje javnega zdravja, • prepozna ključne javnozdravstvene probleme, • razume cilje in funkcije sistema zdravstvenega varstva, • pozna organizacijsko strukturo zdravstvene dejavnosti, • zna umeščati posamezne probleme v širši kontekst organiziranosti zdravstvenega varstva in predlagati utemeljene spremembe sistema zdravstvenega varstva. 	<p>Knowledge and understanding:</p> <p>Students:</p> <ul style="list-style-type: none"> • get to know the foundations of public health, • recognize the key public healthcare problems, • understand the objectives and functions of the healthcare system, • know the organisational structure of healthcare activities, • are able to categorise specific problems in the broader context of the healthcare organisation and to propose justified changes to the healthcare system. 									
Metode poučevanja in učenja:	Learning and teaching methods:									
<ul style="list-style-type: none"> • predavanja z aktivno udeležbo študentov (razlaga, diskusija, vprašanja, primeri, reševanje problemov), • vaje: priprava, predstavitev in uspešen zagovor projektne/raziskovalne naloge (reševanje problemov, študije primera, kritično presojanje, diskusija, refleksija izkušenj, vrednotenje, projektno delo, timsko delo), • konzultacije, • izpit. 	<ul style="list-style-type: none"> • lectures with active student participation (explanation, discussion, questions, examples, problem solving), • tutorial: preparation, presentation and a successful defence of a project paper (problem solving, case studies with discussion, methods of critical thinking, reflection of experience, evaluating, project work, team work), • consultations, • exam.
