Cilji in kompetence:

Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:

- spoznavanje osnovnega kategorialnega aparata pedagoških in andragoških ved, razvoja glavnih teoretskih tokov in paradigem v razvoju pedagoške misli ter razvoja osnovnih strukturnih elementov šolskih sistemov,
- razumevanje vzrokov za nastajanje različnih pedagoških idej,
- razumevanje, kako je mogoče oblikovati posameznika,
- oblikovanje lastne profesionalne podobe, lastnega vzgojnega stila,
- sposobnost reflektiranja svojega dela in argumentiranja svojih strokovnih odločitev,
- sposobnost reševanja kompleksnih problemov, integracije znanja in formuliranja presoj,
- skrb za permanentno izobraževanje in strokovno izpopolnjevanje, za samoizobraževanje in izpopolnjevanje ter zavedanje vrednosti na dokazih temelječega znanja v praksi,
- prenos enotne doktrine zdravstvene nege in promocije zdravja v prakso,
- sposobnost komuniciranja v negovalnem, zdravstvenem, multiprofesionalnem timu, razvijanje in vzdrževanje dobrih medsebojnih odnosov med zaposlenimi, pacienti, njihovimi družinami, skupinami, skupnostjo,
- zmožnost delovati v andragoških procesih, zlasti v formalnem izobraževanju odraslih,
- sposobnost za samostojno načrtovanje in izpeljavo andragoškega ciklusa na svojem predmetnem področju.

Objectives and competences:

The learning unit mainly contributes to the development of the following general and specific competences:

- exploring the basic categorical apparatus of pedagogy and andragogy sciences, development of the main theoretical currents and paradigms in the development of the pedagogical thought, and the development of basic structural elements of the school systems,
- understanding the causes of variety of pedagogical ideas formation,
- understanding how it is possible to develop an individual
- developing one's own professional image, educational style,
- the purpose of reflection on one's own work and supporting their professional decisions,
- the ability for solving complex problems, integration of knowledge and formulating judgements,
- care for the continuing education and professional training, for self-directed learning and refinement, as well as awareness of the value of evidence-based knowledge in practice,
- transfer of a unified doctrine of nursing care and health promotion into practice,
- the ability to communicate in nursing, healthcare, multi-professional team, and developing and maintaining good relationships among employees, patients, their families, groups, and the community,
- the ability to operate in andragogical processes, especially in the formal education of adults,

	<ul style="list-style-type: none"> the ability to independently plan and implement the andragogical cycle in the subject area.
--	---

Predvideni študijski rezultati:

Študent/študentka:

- pozna in razume osnovne pojme, različne vzgojne koncepte,
- razume osnovne zakonitosti vzgojnega procesa, vzgojo z vidika posameznika in družbe,
- razume vpetost učitelja med pričakovanja in zahteve države, pričakovanja staršev in njihovih otrok, stroke in njegovih lastnih vizij o tem, kaj je šola in kakšna je vloga vzgoje oz. izobraževanja v njej,
- načrtuje ustrezne poti vzgoje ter prepoznavajo situacije, ki ponujajo možnost vzgojnega delovanja,
- oblikuje primerne strategije discipliniranja učencev,
- reflektira svoje delo z vidika doseganja vzgojnih ciljev,
- kritično ovrednoti lastno pedagoško delo in argumentira svoje strokovne odločitve,
- razume osnovne procese vzgoje in izobraževanja odraslih in zakonitosti delovanja andragoških institucij,
- razume posebnosti izobraževanja odraslih v primerjavi z izobraževanjem mladih,
- zna pripraviti in voditi proces izobraževanja odraslih,
- zna pripraviti izobraževalni program in raziskati potrebe po izobraževanju za določene ciljne skupine,
- prepoznavajo posebnosti učno-vzgojnih situacij pri odraslih in jih ustrezno interpretira s pomočjo spoznanih andragoške teorije.

Intended learning outcomes:

Knowledge and understanding:

Students:

- know and understand the basic concepts, different educational concepts,
- understand the basic principles of the process, the purpose of education from the perspective of an individual and the society,
- understand the engagement of the teacher considering the expectations and the requirements of the country, the expectations of parents and their children, and the teacher's own visions of what is school and what is the role of education in it,
- are planning proper channels of education and identifies situations that offer the possibility of educational performance,
- develop a suitable strategy of disciplining students,
- reflect on their work in terms of the achievement of educational objectives,
- critically evaluate own pedagogical work and support their professional decisions,
- understand the basic processes of education and adult education, as well as the principles of andragogical institutions,
- understand the particularities of adult education in comparison with education of young people,
- are able to develop and lead the process of adult education,
- are able to prepare the educational programme and explore the needs for education of specific target groups,
- are able to identify the particularities of educational situations in adult education and correctly interpret them according to the andragogical theory.

Metode poučevanja in učenja:**Learning and teaching methods:**

<ul style="list-style-type: none"> • predavanja z aktivno udeležbo študentov (razlaga, diskusija, vprašanja, primeri, reševanje problemov, ekskurzija), • projektno delo v povezavi s prakso (refleksija izkušenj, projektno delo, timsko delo, metode kritičnega mišljenja, diskusija, sporočanje povratne informacije, socialne igre), • izkušenjsko, sodelovalno in problemsko učenje (samostojno učenje, diskusija, razlaga, opazovanje, timsko delo, študija primera, metode kritičnega branja in pisanja, igra vlog, sodelovalno učenje, evalvacija, samoocenjevanje), • individualne in skupinske konzultacije (diskusija, dodatna razlaga, obravnava specifičnih vprašanj). 	<ul style="list-style-type: none"> • lectures with active student participation (explanation, discussion, questions, examples, problem solving, excursion); • project work in relation to practice in terms of content (reflection on experience, project work, team work, critical thinking methods, discussion, feedback, social games), • experiential, cooperative and problem learning (self-study, discussion, explanation, observation, teamwork, case study, role-play, cooperative learning, portfolio, evaluation, self-assessment), • individual and group consultations (discussion, additional explanation, considering specific questions).
