### **Cilji in kompetence:**

Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:

- usposobljenost za razvijanje kulture nediskriminatorynosti in spoštovanje medkulturnih razlik,
- vsestransko in sistematično obravnavo pacienta glede na relevantne fizične, psihične, socialne, kulturne, duhovne in družbene dejavnike,
- aktivno promoviranje zdravja, ocenjevanje tveganja za nastanek bolezni in skrb za varnost ter zdravje ljudi,
- varovanje patientovega dostenjanstva, zasebnosti in zaupnosti podatkov,
- prenašanje enotne doktrine zdravstvene nege in promocije zdravja v prakso.

### **Objectives and competences:**

The learning unit mainly contributes to the development of the following general and specific competences:

- the ability to develop the culture of non-discrimination and the consideration of intercultural differences,
- comprehensive and systematic treatment of the patient with regard to relevant physical, psychological, social, cultural, spiritual and social factors,
- active promotion of health, risk assessment and care for the safety and health of people,
- protection of patients' dignity, privacy and data confidentiality,
- transferring the uniform nursing care doctrine and health promotion into practice.

**Predvideni študijski rezultati:****Intended learning outcomes:**

<b>Študent/študentka:</b>	<b>Students:</b>
<ul style="list-style-type: none"> <li>• razume koncept »kultura« in razlikovati kulturne modele,</li> <li>• pozna vpliv kulture na zdravje, bolezni in zdravstveno varstvo,</li> <li>• pozna teoretično in pravno podlago za kulturno spoštljivo zdravstveno nego,</li> <li>• prepozna kategorije kulturnih razlik, ki vplivajo na zdravstveno nego,</li> <li>• razvije sposobnosti za ocenjevanje kulturnega ozadja pacientov v zdravstveni negi,</li> <li>• razume dejavnike, ki zavirajo kulturno občutljivost in razvoj kulturnih kompetenc,</li> <li>• pozna kulturne kompetence, potrebne za zagotavljanje oskrbe bolnikov iz kulturno različnih skupin,</li> <li>• analizira vlogo medicinskih sester pri preprečevanju kulturne diskriminacije in socialnih neenakosti pri dostopu do zdravstvene oskrbe.</li> </ul>	<ul style="list-style-type: none"> <li>• understand the concept of “culture” and differentiate the culture-models,</li> <li>• know the impact of culture on health, illness and health care,</li> <li>• know the theoretical and legal foundation for culturally respectful nursing care,</li> <li>• recognise categories of cultural differences that affect nursing care,</li> <li>• develop skills for cultural assessment in nursing practice,</li> <li>• understand factors that inhibit cultural sensitivity and cultural competence development,</li> <li>• know the cultural competences necessary to provide care for patients from culturally different groups,</li> <li>• analyse the nurses’ role in preventing cultural discrimination and social inequalities in the access to health care.</li> </ul>

**Metode poučevanja in učenja:****Learning and teaching methods:**

<ul style="list-style-type: none"> <li>• predavanja z aktivno udeležbo študentov (razlaga, diskusija, vprašanja, primeri, reševanje problemov),</li> <li>• seminarske vaje: priprava, predstavitev in uspešen zagovor projektne/raziskovalne naloge, portfolio (reševanje problemov, študije primera, kritično presojanje, diskusija, refleksija izkušenj, vrednotenje, projektno delo, timsko delo).</li> </ul>	<ul style="list-style-type: none"> <li>• lectures with active student participation (explanation, discussion, questions, examples, problem solving),</li> <li>• seminar tutorial: preparation, presentation and a successful defence of a project/research paper, portfolio (problem solving, case studies, methods of critical thinking, discussion, reflection of experience, evaluation, project work, teamwork).</li> </ul>
